

Low profile Thin-Lites are designed for use in areas that require light but have limited mounting space. Only 2.25" wide and 1.25" deep, they provide lighting in low profile area and aisle lighting. They fit nicely under cabinets and around mirrors. They feature anodized aluminum housings and clear acrylic diffuser lens.

All Thin-Lite Corporation products comply with and exceed most industry standards. However, due to continued manufacturing improvements, UL listings for individual Thin-Lite and S.T. Lighting fixtures will vary. Please consult factory for current information. Other voltages, high humidity, and Dual RFI suppressant models are available. Actual lumen ratings vary based on interior design of your vehicle. Specifications subject to change without notice.
